Deputy Chief Murray and officer McDonough hurried to the scene followed by an ambulance. They found the lad suffering from a bad wound in the abdomen but not unconscious. The wounded boy begged the police to do nothing with his cousin as it was purely an accident.

The injured boy was rushed to the hospital where he is reported today as having a chance for recovery.

The third boy in the party was Eugene Laroche, who owned the gun. The other boys were terribly affected by the injury of their playmate.

## NEW LAW GOES IN EFFECT ON DEC. 7

The new law approved on June 7, 1918, requiring the numbering and recording of undocumented vessels, will go in effect on Saturday, Dec. 7, 1918.

In the case of power tenders for a boat which is itself numbered under this act, the tenders will take the

same number as the parent boat. Tenders of documented boats will take a separate number for each power tender.

This law does not amend section 14 of the act of March 4, 1915, requiring the marking of lifeboats.

Jessie Joy Hill. Her many friends in Portsmouth and Kittery will learn with deep regret of the death of Jessie Joy Hill, wife of P. Rowland Hill, which occurred in Boston on Tuesday, November 26th, after an illness of several months.

Funeral services were held at her home 29 Algonquin street, Dorchester, on Wednesday afternoon, and were largely attended, the floral offerings being many and beautiful. Interment was at the family lot at Kittery on Thursday last.

Mrs. Hill, although a resident of Boston for many years, always retained a fond interest for Kittery, her birthplace, and with her husband spent a number of weeks each year at the old homestead.

Soon after their marriage Mr. and Mrs. Hill built an artistic home in Dorchester, where they have since lived, their mutual love and devotion winning the esteem and admiration of a wide circle of neighbors and friends.

Although not in good health for several years, Mrs. Hill was always an inspiration to all with whom she came in contact, her kind heart, sweet disposition and nobility of character, as well as her courage and patience during her illness, endearing her to all. Beautiful friend,—thy work all done, Beautiful soul,—into glory gone, Beautiful life,—with its crown now won,

God giveth thee rest.

Rest—from all sorrows and watchings and fears,

Rest—from all possible sighings and tears,

Rest, through God's endless wonderful years,

At home with the best.

# MOONEY'S LIFE SAVED BY GOVERNOR

**Sentence of Death Committed to Life  
Imprisonment--Threats of Strikes if  
Death Sentence Was Carried Out**

Court action to save Mooney from the gallows had been exhausted after

the Supreme court of the United States in a recent decision ruled that it could not review the case. Threats of strikes in various parts of the country if Mooney was executed were made and some time ago the trial justice who presided at the trial and sentenced him, recommended that he be given a new trial. President Wilson at one time wrote to the Governor of California asking him to be sure that there was not a miscarriage of justice.

# ONLY THREE IN PEACE DELEGATION

**New Make Up Includes Lansing, Andrew  
White and Col. House--President Not  
to Act at Peace Table**

(By Associated Press)  
Washington, Nov. 28.—The impression is growing among those who have talked with the President that the American peace delegation to the Paris conference will be limited to three members. Speculation as to the personnel of the delegation has narrowed down to Robert Lansing, Secretary of State, Henry White, former ambassador to England under the McKinley administration, and Col. E. M.

House. There has been no announcement and possibly will not be until the President addresses Congress on Monday or Tuesday.

White House callers also are of the opinion that the idea that President Wilson would sit at the table as a delegate is untrue, that he will simply attend the great preliminary meeting of the heads of all nations and see the final conference well under way before returning.

## EXETER

Exeter, Nov. 29.—It was a typical, old fashioned Thanksgiving day here. Union services were held in the Unitarian church, the pastor, Rev. Edward Green, preaching a sermon of "Thanksgiving in accordance with the dawn of peace."

Special services were also held at Christ church at 10.45, the sermon being by the pastor, Rev. Victor M. Haughton.

The day was a general holiday, but there were no amusements on the program except theater going in the afternoon. The academy closed on Wednesday afternoon for a recess until this morning and for the students a Thanksgiving dinner was served in the school hall.

Food conservation week will be appropriately observed in the towns of

this district. Plans were made at a meeting here which was addressed by George A. Wood of Portsmouth. In most of the towns a speaker will be assigned, and in some instances it is hoped that the services of a returned soldier may be secured.

A resident saw a herd of five deer in his field on Wednesday afternoon. They appeared to be quite tame and approached near his house.

Boys have made themselves troublesome by breaking into the boat houses on the Swanwick river and damage has been reported to the police.

The death of Frank Liddell, or Lake, as he was known here, which was officially reported on Wednesday, was announced about a month ago. He was a resident of Jady Hill avenue, and prior to enlisting was employed in the Exeter Manufacturing plant. Liddell died of pneumonia in England.

## A Well Warranted Agitation.

Boston people have been complaining of what they term "fireproof" coal, meaning by this that the coal they are receiving, and paying big prices for contains stone to an extent that justifies complaint. The matter has been called to the attention of the district attorney, who says that as the federal authorities judge the quality of the coal, fix the price for the dealer and for the public and define the zones within which the dealers can operate, the dealers are not to blame for the conditions that obtain, and that the remedy must be sought in Washington. He suggests that the Chamber of Commerce and other organizations appeal to the senators and congressmen to take up the question and see what can be done to correct a condition that results in widespread injustice.

No one in New England needs to be reminded of the abominable quality of the coal supplied to this part of the country last winter, and apparently there is to be little improvement this winter unless the powers that have supervision of the coal business can be induced to act. Most people, not only in Boston but in all parts of New England, are finding a great proportion of stone in their coal, and their protests against the imposition are well grounded.

There is nothing right about it. The government in exercising control over this business should see that the people are not swindled in the purchase of fuel. There is any quantity of law to protect the public against adulterated foods. Milk must come up to a certain standard and all prepared foods must not only be pure, but full weight must be given to the last ounce. But when it comes to coal there appears to be no restriction on the amount of stone that may be included and the helpless consumer is obliged to pay extravagant prices for coal that is altogether too largely "fireproof."

The abuse should be corrected. Not only is it entirely wrong that the people should be thus imposed upon, but it is wrong for the government to spend the people's money in shipping such stuff about the country. An ordinary individual selling any product that should fall so far short of being what it was represented to be would quickly be haled before the courts and shown the error of his way.

It is to be hoped that the people of Boston will keep up their clamor until they compel a hearing, and that in their protest they will be joined by other suffering communities. The abuse is flagrant and inexcusable and should be corrected without delay.

It is only fair to retail dealers to repeat that they are not to blame. They pay the prescribed prices for coal and have to take what is sent them and pass it along to the consumers. But so long as the control of the business rests in the hands of the government it should see to it that the people have a reasonably square deal, which is all they ask.

Postmaster General Burleson calls to his aid a most capable man to assist in organizing the telephone, telegraph and cable systems under government control. This man is Theodore N. Vail, president of the American Telegraph and Telephone Company, and it is safe to say that what he doesn't know about the business in hand isn't worth knowing.

There were many fatalities in connection with the peace celebrations in various New England cities, most of them being caused by automobiles working their way through the excited and hilarious crowds. These were regrettable features of an otherwise very happy occasion.

The people of Nantucket thought their isolated position would protect them against the influenza, but it "got there just the same." After the Atlantic ocean had failed to stop the germs they could hardly be expected to be held up by Buzzards Bay and Vineyard Sound.

The photo engravers of New England organized at Springfield, Mass., a few days ago, and a report says "the first step the new organization took was to formulate plans for a general raise in prices." How strictly in line with the spirit of the times, to be sure.

And now a religious census of the city is to be taken. Portsmouth has had a rapid growth in the last few years and it is proper that the churches should know where they stand with reference to the new population.

An "intensified" accumulation of coal for winter storage in the eastern states is promised from Washington. This, if reliable, is intensely gratifying.

In making "Victory Day" bone dry Boston improved on the course pursued in some other New England cities.

## NAVY YARD NOTES

**Transferring Gun Crews**  
Although no vessels have been advertised for sale, the Navy department is transferring the naval gun crews of returning transports and will probably disarm some submarine chasers. The navy built 400 chasers and loaned 100 of them to France. Secretary of the Navy Daniels stated that probably some of the chasers would be sold.

**Praise from Daniels**  
The commandant of the yard has received the following telegram from the secretary of the navy relative to the United War Drive:

The navy gives almost \$300,000 to the United War Work campaign. This is an achievement which ranks high among the great things which the American Navy has done in this war.

The great gift of the navy in addition to actually adding many thousands to the total served as an incentive to the rest of the country. That this fact is recognized is shown by a telegram received by Rear Admiral Cowie from John R. Mott, National Chairman of the United War Work campaign, saying, "We share your pride in what the men of the navy have done. Our entire general committee appreciates it that you and all those associated with you in the navy have done to help make the United War Work campaign successful."

I take the utmost pride in this remarkable evidence of the willingness of the navy to help whenever it is called upon, and I send my sincere thanks to the men and women of the American navy who have answered my appeal so generously.

## "JAKEY" GOES INTO THE POLICE JITNEY

Besides paying fines, "Jakey" drunks are contributing more than they expect to the city. Every time a "Jakey"

is relayed of his jammed finger the expenses of the police department is cut in the operation of the patrol wagon.

Patrolman Mulholland is responsible for the scheme which has the high cost of straight alcohol tied to a post. Every time a bottle of new jag elixir is confiscated by the police is added to the upkeep of the city hall jitney and as often as needed it goes into the radiator of the machine. The driver says it answers all purposes and as long as it comes along free it will do more good in the automobile than it would in the stomachs of the thirsty ones who have been cornering the market on this newly adopted speed.

## RUTLEDGE-COUGHLIN

## DINNER TO 65 POOR PEOPLE AT KEARSARGE

Proprietor and Mrs. Sherman T. Newton of the Kearsarge hotel were the hosts on Thanksgiving day of a large number of people who were in need of a good dinner or who in stress of circumstances would be unable to enjoy a turkey dinner.

There were 65 who sat down in the main cafe of the hotel to a dinner that they all will attest was one of the finest they have ever eaten. There was nothing lacking for when Mr. and Mrs. Newton do things there is no half way measure and more care and thought was put into that dinner of yesterday than some of the most important banquets when the price per plate is no consideration.

So that every deserving person should get the benefit of the dinner, tickets were placed in the hands of Miss Emily Bracelin, Mrs. Hall of the Organized Charities, City Overseer of the Poor P. B. Kane, and Chief of Police Hurley, and they made a thorough job of it. The invitation was for the cafe, but in cases where Mr. and Mrs. Newton learned that they could not come out, the dinner was sent.

There was something more than the dinner. There was a cordial greeting that made everybody feel an honored guest and everybody was served in a most beautiful manner. The number of

turkeys that were done to a turn and all of the fixing that accompanied them were more than enough for everybody and there was enough left to feed many more. While everybody plainly showed their enjoyment, there was no one who showed greater enjoyment over the success of the affair than Mr. and Mrs. Newton. It was a Thanksgiving worth while for them.

## OBSERVED 10TH ANNIVERSARY

Thanksgiving Day was the tenth anniversary of the Portsmouth Lodge of Elks taking over the home on Pleasant street and this was observed with a supper following the regular meeting. It has been ten busy years for the home, but none has been more so than during the past year, with its Red Cross activities and its use for the Emergency hospital, a red letter year in its annals of charity.

## SAVE YOUR HAIR! A SMALL BOTTLE STOPS DANDRUFF

Every bit of dandruff disappears and hair stops coming out.

Try this! Your hair appears glossy, abundant, wavy and beautiful.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scourge. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Get a small bottle of Knowlton's Danderine from any drug store or toilet counter for a few cents, and after the first application your hair will take on that life, lustre and luxuriance which is so beautiful. It will become wavy and fluff and have the appearance of abundance, an incomparable gloss and softness; but what will please you most will be after just a few weeks' use, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating and life-producing properties cause the hair to grow long, strong and beautiful.

## COAL ADVANCES IN PRICE IN BOSTON

(By Associated Press)  
Boston, Nov. 28.—An increase of a dollar a ton to take effect tomorrow, in all household coal, was allowed by Fuel Administrator Storrow on the recommendation of the Boston Fuel Commission.

The new schedule allows the dealers to charge \$12 a ton for broken, egg, stove and chestnut coal, and \$11 for pea coal. The increase is caused by the increase in the price of the coal miners.

## HOSPITALS NEED THE LINEN BADLY

The linen shower of the Red Cross, which will be held at the Elks' home on Friday and Saturday of this week, should meet with a ready response. The linen, sheets, towels, etc., as already stated, are for the hospitals in France which are in great need and want many thousand sheets at once.

Officially certain sizes are asked for, but at the big linen shower that is being held in Boston this week it has been ruled that the size of the sheet makes no difference, that any size will be thankfully received. The statement was made that the Red Cross had fixed the sizes as a guide but after so many complaints had come in it was decided that any size sheet as long as it was new, or nearly new, would be received. The main consideration is that the hospitals of France desire so many thousand sheets, towels, etc., and it is possible that many of the boys from the United States may be lacking the comforts in these sorely pressed hospitals.

The main thing is to go into your linen closet, and pick out one or two sheets, a few towels, and send them to the Red Cross rooms on Friday or Saturday. Portsmouth has a set quota, but it is hoped that the response will be way over the quota.

## ELKS' MEMORIAL ON SUNDAY AFTERNOON

The annual memorial service of the Portsmouth Lodge of Elks will be held on Sunday afternoon at the Colonial Theatre and the usual impressive program has been arranged.

There have been many deaths in this lodge during the past year and this combined with the war, makes the Elks' memorial this year have added significance. Governor-Elect John H. Bartlett will deliver the eulogy and a male quartet will render a program, while a large orchestra will render the musical program.

The memorial will be at 2 o'clock and is open to the public, with just the necessary seats for the Elks reserved. No tickets will be issued this year.

## EAT LESS MEAT IF BACK HURTS

Take a glass of Salts to flush kidneys if bladder bothers you.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.

## DRYDEN TO MEET PETER STURGIS

At the end of the three hour bout last Monday between Bill Dryden and Charlie Metro, Bill announced that he had wrestling enough for a couple of weeks, but this week he was able to arrange a match with Peter Sturgis, the well known middle weight, and it will be held on Monday evening.

Sturgis is one of the best men of his weight in the country, a favorite for his action in all of the wrestling clubs and it promises to be a fine match. The preliminary has not been arranged, but two good men will be shown.

The match last Monday was the longest ever held in this city and one of the best. Metro is a very clean wrestler and it was a question of endurance between two good men.

## GOOD BOXING AT NAVAL PRISON

There was a smoker held for the prisoners and guards from the Naval Prison at the V. M. C. A. hut on Wednesday evening and the boxing matches were especially good. They were six-round affairs and some of them were very fast and clever.

The surprise of the evening was the decision of Tim Dolan of South Boston over Dick Gilman of New York. Gilman is a clever boy who has been fighting the best of the New York boxers before he joined the navy. He was picked to get the win over Foley, but the latter had it all over Gilman and he was awarded the decision. Dolan looks like a coming lad in the ring and he has a stiff punch and is a willing two-fisted fighter.

In the match between Battling Skelchington lightweight of the first Naval District, and Young Lynch, the latter played with him to the finish and earned a draw. Bill Regan and Matty White went six rounds to a draw.

The boxing was followed by a musical program.

## DRINK HOT WATER BEFORE BREAKFAST

Says you really feel clean, sweet and fresh inside, and are seldom ill.

If you are accustomed to wake up with a coated tongue, foul breath or a dull, dizzy headache, or if your meals sour and turn into gas and acids, you have a real surprise awaiting you.

Tomorrow morning, immediately upon arising, drink a glass of hot water with a teaspoonful of Limestone phosphate in it. This is intended to first neutralize and then wash out of your stomach, liver, kidneys and thirty feet of intestines all the indigestible waste, poisons, sour bile and toxins, thus cleansing, sweetening and purifying the entire alimentary canal.

Those subject to sick headaches, backache, bilious attacks, constipation or any form of stomach trouble, are urged to get a quarter pound of Limestone phosphate from the drug store and begin enjoying this morning inside-bath. It is said that men and women who try this become enthusiastic and keep it up daily.

Just as hot water and soap cleanse, purify and freshen the skin, so hot water and a teaspoonful of Limestone phosphate act on the stomach, liver, kidneys and bowels. Limestone phosphate is an inexpensive white powder and almost tasteless.

# WANT NON-PARTISAN CHANGE IN CHARTER

## Mayor to Appoint Committee to Suggest Improvement—Other Business

A meeting of the Mayor and Council was held on Wednesday evening with Mayor Ladd presiding and Councilmen Rayner, Gray, Kirkpatrick, Kaula, Weeks and Humphreys present.

The blocked condition of Hanover and Fleet streets with wagons of all descriptions was brought before the Council on a petition signed by S. A. Boston and forty other residents of that section of the city. Mr. Boston appeared before the Council and said that the conditions had existed for nearly two years but especially since last July. It was so bad as to become a fire menace to the people. He said that since last spring a hayrack had been in front of his door night and day, with the exception of a few hours when it was in use, and at times the wheels were chafed together. Dump carts, express wagons and every other kind of a wagon extended in a row around from Congress street to Fleet and up Hanover street. In one place he stated that there were several wagons about a hydrant that would have to be moved in case of a fire and one day last week the auto chemical in responding to a fire had to wait at one end of Hanover street until a team coming the other way could get through the narrow lane left by the obstruction.

He said he had appealed to the Board of Public Works and got no satisfaction. Councilman Kaula said he had spoken to Mr. Parsons of the Board of Public Works, and also to Chief Woods of the fire department, but with no satisfaction and something should be done. After some discussion in which it was stated that the police should order obstructions cleared away from any highway and the authority of the Board of Public Works, it was finally voted to refer the petition to the Board of Public Works with a request that they see that the nuisance be abated at once.

Mayor Ladd appointed Harry J. Hoyton as a member of the striking fund commission and it was confirmed.

A resolution was passed authorizing the Mayor to appoint a non-partisan committee of six citizens with himself as chairman, to consider possible changes in the present city charter, so that if any changes were to be made they would be made after due consideration and study.

A resolution approving the pole location for electric lights and telephones, at the Atlantic Heights, was passed. Councilman Weeks presenting blue prints showed the locations, as approved by the Emergency Fleet Corporation.

A resolution transferring the sum of \$500 from contingent to the salary of the plumbing inspector, as extra compensation for his duties in the housing proposition at the Atlantic Heights was passed. It was explained that the plumbing inspector, who gets but a nominal sum for his services, has since the housing work started been obliged to give a great deal of his time, as he must personally inspect every one of the houses erected, and approve the plumbing.

A resolution authorizing the sale of one of the five horses at the Central fire station was passed, after Councilman Gray gave the information that the horse on the horse wagon was to be shifted to the engine, and that one of that pair was to be sold.

Councilman Humphreys offered the following resolution, which was apparently not generally understood by the Council, and it went over for further explanation.

"Whereas the City of Portsmouth, by its Mayor and Council, seconded by the Board of Health of Portsmouth at a conference on May 25, 1918, signified their desire to co-operate with the Federal and State Health Departments in building up effective sanitary control in what has become known as the Portsmouth-Kittery Civil Sanitary District for the better protection of the health of the military personnel and shipyard workers in this district and

Whereas the following sums of money have been made available for operations of the sanitary district for the year ending June 30, 1919:

|                                            |            |
|--------------------------------------------|------------|
| Public Health Service.....                 | \$2,000.00 |
| American Red Cross.....                    | 3,000.00   |
| State of New Hampshire.....                | 5,000.00   |
| State of Maine.....                        | 3,000.00   |
| Town of York.....                          | 1,200.00   |
| City of Portsmouth (to Dec. 31, 1918)..... | 3,000.00   |

and in addition the American Red Cross, at the recommendation of F. A. Surgeon Paul Preble, Medical Officer in charge of said sanitary district, appropriated \$750 for the establishment of a venereal clinic in Portsmouth, and

Whereas the Federal and State financial aid was made available as a war emergency with the understanding that this financial support would be continued as long as the duration of the war and further, if necessary, until such time as local authorities could properly organize a trained effective health organization, and

Whereas: Although events have occurred looking to the cessation of all hostilities, the withdrawal of Federal and State financial support at this time would result in a distinct loss to the City of Portsmouth not only in worthy financial support but in the development of a modernized health department program now well under way:

"Now therefore be it resolved: That it is the earnest desire of the Mayor and Council of the City of Portsmouth to petition the Surgeon General of the Public Health Service, the American Red Cross and the State of New Hampshire, to continue the present health organization, generally known as the Portsmouth-Kittery Civil Sanitary District, until July 1, 1919, in order to carry out the public health program already developing; realizing unless this Federal and State co-operation is continued the ground work of the public health measures already laid will be in great measure lost."

"And be it further resolved: That this action of the Mayor and Council be communicated to the Assistant Surgeon Paul Preble in order that he may make the necessary recommendations to the Federal and State Health authorities to continue the present organization on and after January 1, 1919."

"And be it further resolved: That the Mayor and Council of the City of Portsmouth do hereby tender their full and hearty support and co-operation to the Federal and State Health authorities with the realization that the greater proportion of the moneys made available by these authorities for the sanitary district is reacting largely for the public health betterment of the City of Portsmouth."

Councilman Kaula received no encouragement in his motion to lay it on the table indefinitely, the other members of the Council refusing to take such action. Councilman Kaula was the only man who objected and his ground was that the city already had an efficient Board of Health and while grudgingly agreeing that the Public Health Service had done wonderful work in the handling of the epidemic and at a small cost to the city, could not see why it should be continued.

The other members of the Council did not agree with him. Councilman Humphreys said he thought it a grand chance for the city to continue with an efficient health department. This seemed to be the sentiment of the other members and Councilman Kaula finally withdrew his motion and after Mayor Ladd said that the resolution, which should be a communication and drawn in different form, the matter was laid on the table for further explanation, or a redrafted form. There is apparently little doubt but what the Council will give their approval of the excellent work that has and is being done by this Board, at such a small cost to the city.

The quarterly report of the City Marshal was accepted and filed.

## BE PRETTY! TURN GRAY HAIR DARK

Try Grandmother's old Favorite Recipe of Sage Tea and Sulphur.

Almost everyone knows that Sage Tea and Sulphur properly compounded, bring back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Now, days by asking at any drug store for Wyeth's Sage and Sulphur Compound you get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two your hair becomes beautifully dark, glossy and attractive.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

## THANKSGIVING DAY WELL OBSERVED HERE

Special Significance This Year With Ending of War--Union Service at Church

Thanksgiving Day with the added significance of gratitude for the ending of the World's great war, was fittingly observed in this city, with the family reunions and gatherings, the same distinct feature of former days. There were many vacant places with the boys over there or in different branches of the service, although there were many of the boys in uniform home for the holiday.

The weather was ideal, bright and with just enough coolness to make it a bracing day, although later it clouded up and during the evening the wind swung southeast and it rained.

The usual union service of the churches was held at 10.30, at the Methodist church and there was a large attendance, many of the ministers taking part in the service, which was in the nature of a thanksgiving service for the ending of the war.

There was special observation of the day at all of the army and naval camps in this section, with the usual big holiday dinner of turkey and "all the fixings."

At Fort Constitution there was a program of sports arranged which included a football game between the companies and at noon all of the men at the station were served with a fine turkey dinner. Almost half of the men were given liberty for the day and those who could reach their homes were given sufficient time off to reach them. During the afternoon and evening the Y. M. C. A. had was a popular place and special entertainment was furnished.

At the Navy Yard on all of the ships the dinner was made a feature event with a menu that any hotel could well feel proud of. Special liberty was given and many of the men were guests of friends in this city.

At the Marine barracks there was suspension of all but necessary work and the dinner was featured, while during the afternoon and evening there were various entertainments.

The Prison ship Southern and the Naval prison were equally keen to observe the day and the dinner menu almost as elaborate as that served the men on ship. At the Naval prison there was a minstrel show and various forms of entertainment during the afternoon and evening, the Y. M. C. A. but being used for the show and smoker that was held.

In this city the family reunions were many, while through the management of the War Camp Community Service, many families had one or more enlisted men as their guests during the day, although the responses on the part of the enlisted men to the invitations were not as great as expected.

The poor families were well taken care of, those unable to get out were furnished with a fine dinner by the Salvation Army, and Proprietor and Mrs. Sherman B. Newton were the hosts of a large number at the Bear-sage hotel.

## Union Service

The union Thanksgiving service held at the Methodist church on Thursday morning, was attended by a congregation of about 150 who came to offer thanks that peace had come and that the terrible bloodshed overseas was over.

The pastor, Rev. Holm S. Tuttle, delivered an able and appropriate sermon, his theme being "In Everything Give Thanks"--1 Thess--5:17.

Rev. Alfred Gooding, pastor of the Unitarian church, read the scripture and Mrs. George Chaffee rendered two

appropriate vocal solos. The congregation joined heartily in the singing of hymns.

## Home For Aged Women

At the Home for Aged Women the inmates enjoyed a fine Thanksgiving feast, which included roast turkey and vegetables, fruit and other delicacies for dessert. The dinner was well prepared by the matron, Mrs. Reed, although but two of the ten inmates were able to be served in the dining room; the others had their holiday repast in their rooms.

Among the Thanksgiving donations was ten dollars from Mr. and Mrs. John Broughton, \$5 from J. Winslow Peirce and \$2 from the primary and beginners department of the North Church Sunday school.

## At the Hospital

At the Portsmouth Hospital an excellent turkey dinner was served to those able to enjoy it, and others were served delicacies. Most of the patients who were able received callers and every effort was made to have the patients enjoy some Thanksgiving cheer, past brought to their rooms.

## At the County Jail

The inmates of the county jail enjoyed a real Thanksgiving dinner yesterday and Deputy Sheriff and Mrs. Wilbur B. Shaw brought real cheer to the 17 prisoners who are confined in that institution. A roast chicken dinner, with dressing, mashed potatoes, squash, onions, mince and apples, fruit and coffee was served. Mrs. Shaw looked after the preparation of the dinner, and Mrs. Spinnery, mother of Sheriff Ceylon Spinnery, aided in giving holiday cheer by making the pies and doughnuts for the prisoners. In the afternoon Deputy Sheriff Shaw gave a graphophone concert for the benefit of those in the institution.

## At Children's Home

Thanksgiving was a happy holiday to the little folks at the Children's Home on Lafayette road and a feast of roast turkey and all the good things was prepared by Miss Moore, the assistant matron, Miss Tuttle, the matron, being on a visit to her home in Newbury, Vt. At present there are 22 inmates at the home; but all but nine went away for the day, yet the little folks remaining enjoyed the day and were well remembered with goodies to make holiday cheer by the friends of the institution.

## Enlisted Men Entertained

Portsmouth extended much hospitality to enlisted men on the holiday and many found a homelike atmosphere awaiting them in a real home in this city and will remember the hospitality extended for a long time.

Through the efforts of the Home Hospitality Committee of the War Camp Community Service, of which Miss Martha S. Kimball is chairman, 111 enlisted men were entertained in private homes in this city and suburbs. All who could not find it convenient to entertain at this time were asked to contribute toward a holiday dinner given to enlisted men at the Girls' Patriotic League, the John Paul Jones House, and there 65 men in uniform were given a taste of the delights of a real New England Thanksgiving. There were also 34 other residents who sent word to the War Camp Community Service that they would entertain men in the service, but plans could not be arranged for the acceptance of these invitations.

At least 176 men were entertained through Miss Kimball's efforts and that of her committee and between 60 or 100 men in uniform also were entertained in private homes. In more than one instance the head of a family who had not given an invitation to an enlisted man, went out on the street and found one or more and brought them to his home to be served a real Thanksgiving dinner, "the kind that mother used to make." It is needless to say the men in uniform who were guests appreciated such open hearted hospitality.

## Salvation Army

The Salvation Army played Thanksgiving, host on the holiday and 70 basket dinners to the aged and to widows were distributed by Captain W. J. Lawrence and his assistants. Each basket contained a chicken, potatoes, a squash or a pumpkin, apples, one half pound of tea, can of peas, can of milk a loaf of bread and a pie. In the evening at Salvation Army Hall 200 children were given a free entertainment by Captain W. J. Lawrence, assisted by Rev. Percy Warren Casswell. A moving picture show of six reels was given and the entertainment program included two accordion solos

by Mr. Cammott and selections by the Salvation Army's band musicians, who played several different instruments. Each child was given a bag of candy, an orange and an apple.

## Girls' Patriotic League

The Girls' Patriotic League made every endeavor to have the holiday pass pleasantly to the enlisted men who visited the John Paul Jones House Thursday. Sixty-five were served a chicken dinner, through the generosity of local people. In the afternoon and evening music and dancing enlivened the occasion and the visitors were made to feel at home by the League members.

## At Y. M. C. A.

The secretaries of the Y. M. C. A. huts at the forts saw that bright fires were burning in the grates, and one house was kept all day. In the evening at Fort Constitution an entertainment was given with a good attendance.

A the local Y. M. C. A. building on Congress street enlisted men were made to feel at home and open house was the order all day.

## At Episcopal Churches

At St. John's and at Christ churches on the holiday morning the world's greatest Thanksgiving was observed with prayer and praise to God in which many joined. The rectors of each church gave able sermons suitable for the occasion.

## Army and Navy Service Club

The Army and Navy Service Club was well filled with enlisted men during the holiday afternoon and evening. Dancing was enjoyed from 3 to 5 p. m., and 7 to 10 p. m. A special holiday supper was served enlisted men at a low price at the cafeteria connected with the club.

## Family Reunion

A pleasant family reunion occurred at the Dennett farm, on the Dennett road, Kittery, and the holiday was filled with good cheer and pleasant associations.

The farm house, which is 236 years old, and contains 11 large rooms, with its pleasant environment, was an ideal place for such a gathering. A roast turkey dinner was served and the day was one to be remembered for some time by all of the gathering, who were guests. Those present as the guests of Horace P. Cobb and Miss Janet Delano at the farm were:

Mr. and Mrs. Henry B. Cobb and daughters Gladys and Jennie, and Mr. and Mrs. Leroy F. Cook, Portland, Me.; A. M. Cobb and daughter Adelaide of Malden, Mass.; Mr. and Mrs. Harry Cobb of Boston, Mrs. Fred A. Hyman and Mrs. Carrie Stephenson of Decatur, Neb., and Mr. and Mrs. Merrill Delano and daughter Marjorie, and Thomas Stolt of this city.
